

[PDF] Structure And Interpretation Of Computer Programs - 2nd Edition (MIT Electrical Engineering And Computer Science)

Harold Abelson, Gerald Jay Sussman - pdf download free book

Books Details:

Title: Structure and Interpretation
Author: Harold Abelson, Gerald Jay S
Released:
Language:
Pages: 688
ISBN: 0262510871
ISBN13: 9780262510875
ASIN: 0262510871

Description:

Structure and Interpretation of Computer Programs has had a dramatic impact on computer science curricula over the past decade. This long-awaited revision contains changes throughout the text. There are new implementations of most of the major programming systems in the book, including the interpreters and compilers, and the authors have incorporated many small changes that reflect their experience teaching the course at MIT since the first edition was published. A new theme has been introduced that emphasizes the central role played by different approaches to dealing with time in computational models: objects with state, concurrent programming, functional programming and lazy evaluation, and nondeterministic programming. There are new example sections on higher-order procedures in graphics and on applications of stream processing in numerical programming, and many new exercises. In addition, all the programs have been reworked to run in any Scheme implementation that adheres to the IEEE standard.
